FOREWARD

This publication is a comprehensive directory of labour organizations in Nova Scotia. It provides the reader with names and addresses for most executive members of each union local and also the names and addresses of full-time business agents where it is appropriate. In addition, the back of the publication provides the reader with statistics outlining the growth and distribution of union membership in this province.

The first section lists the names and addresses of representatives of Central Labour Organizations in Nova Scotia. It also lists the names and addresses of officers of the District Labour Councils, the Building Trades Councils, and the Nova Scotia Federation of Labour.

The second section, which is the bulk of this publication, lists the names and addresses of executive members for each union local and indicates which locals are under federal jurisdiction. It also lists the names and addresses of full-time business agents and representatives, which have been identified with an asterisk. Congress affiliations are given in parentheses and unions directly chartered to the Canadian Labour Congress have been marked with the parenthetical note "CLC chartered". This section is organized alphabetically according to union 'short titles' (the most meaningful word in a union's long name). The table of contents outlines in detail how this publication is organized.

The third section contains statistical information on union membership. Unless otherwise indicated the statistics were generated from data compiled by the Nova Scotia Department of Labour.

A large portion of the information presented in this publication was obtained through direct contact with labour officials. Another source of information was provided by financial statements that union locals file each year with the Nova Scotia Department of Labour. This publication was compiled from information gathered in the fall of 1990 through to January 1991. Given this time frame, statistics in the third section of this publication are described as 1990 data.

Appreciation is expressed to the readership of this publication who responded to last year's questionaire on content reduction. In order to satisfy the needs of a significant number of readers, the publication has not been altered and appears the same as it did last year.

This report was prepared by Louise Boudreau with the assistance of Judy MacIsaac.

SELECTED LABOUR STATISTICS

SELECTED LABOUR STATISTICS

This section contains current as well as historical statistics on union membership in Nova Scotia. Table 1 indicates the number of locals and the total membership for each union listed in Section B. Table 2 shows the distribution of unions by membership size from 1988 through 1990. Table 3 outlines the distribution of unions by county for 1990. Table 4 shows a breakdown of union membership by industry for 1990 and table 5 indicates historical trends.

Membership figures were available for the majority of the locals and independent local organizations for 1990. Information from these locals was used to derive the membership statistics used in this section. A large number of the membership figures are estimated and this limitation should be kept in mind when using statistics from this publication.
